

## **Wupatki National Monument Vegetation Map Class for Little Colorado River Invasive Riparian Shrubland**

The map class "[Little Colorado River Invasive Riparian Shrubland](#)" is composed of the following vegetation associations, each described separately:

- [Tamarix spp. Temporarily Flooded Shrubland](#)
- [Alhagi maurorum Semi-natural Shrubland](#)

These types are limited to the floodplains of the Little Colorado River and its major tributaries. Small patches of invasive riparian shrubland also occur away from the river in seeps.
